## Introduction

UK Animal Care Technicians (UKACT) is a professional membership association for those working in education facilities running animal care related courses.

The association is overseen by a group of dedicated volunteer council members, all working toward the common goal of offering our members opportunities for continuous professional development (CPD), access to best practice guidance, and a platform for networking. These endeavours collectively empower our members to ensure the highest standards of welfare for the animals in their care and to deliver an exceptional educational experience to their students.

To be able to meet our Vision and Objectives we will, from time-to-time, process and store personal data from both members and non-members of the association.

UKACT is committed to protecting and respecting your privacy. This Privacy Policy explains how we collect, use, and keep your information safe.
